4th HyMeX Workshop

8-10 June 2010
Bologna, Italy

*Second circular
and
Call for contributions*

Objectives and programme of the workshop

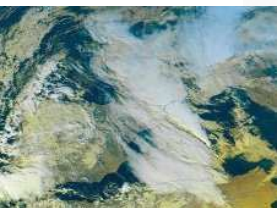

The objectives of the 4th HyMeX Workshop are:

- to broadly discuss the International Implementation Plan,
- to coordinate at the international level the planning of the future observation and modelling operations,
- to present and discuss the most recent scientific progresses concerning the Mediterranean hydrological cycle.

The programme of this workshop includes:

- solicited talks about current key science issues related to the Mediterranean water cycle,
- oral and poster presentations with call for contributions to present on-going work on the Mediterranean water cycle contributing to the HyMeX scientific programme,
- series of parallel sessions of discussions, structured along the main tasks of the International Implementation Plan.

Side-meetings of the HyMeX Working Groups leaders and Task Teams leaders will be organized at the same place on 7 June 2010.

Call for abstracts – Deadline: 31 March 2010

We invite you to submit a short abstract for oral or poster presentations. Papers on all research topics related to the five HyMeX research themes are welcome:

- the Mediterranean water budget: estimation, variability, future evolution,
- the continental hydrological cycle and water resources: regional modelling, evolution with global change,
- heavy precipitation and flash-flooding: process studies, predictability, future evolution,
- intense air-sea fluxes, including severe wind systems and their impacts on dense water formation,
- vulnerability and adaptation capacity to climate change and extreme events.

The presentations may cover observational, modelling or theoretical aspects, long-series climate or case studies contributing to the HyMeX Science Programme or to the HyMeX Implementation Plan.

Short abstract can be submitted online at:

<http://www.hymex.org/>

Timetable

- Deadline for short abstracts 31 March 2010
- Information about acceptance 16 April 2010
- Deadline for pre-registration 30 April 2010
- Conference 8-10 June 2010

Location

The 4th HyMeX Workshop will take place from Tuesday 8 to Thursday 10 June 2010 in Bologna, Italy, at the Conference Centre of the CNR Research Area, Via Gobetti, 101, Bologna.

In order to reach the workshop venue, please consult:

<http://www.bo.cnr.it/congressi/comearrivare-eng.html>

Workshop registration

All participants to the 4th HyMeX Workshop are kindly asked to pre-register at the workshop before 30 April 2010. Registration fees to the workshop will not exceed 100 € and will cover lunch, coffee breaks and the workshop proceedings.

More detailed information, including registration fees and hotel booking will gradually become available on the workshop web site.

Workshop Programme Committee

Silvio Davolio (ISAC-CNR), Philippe Drobinski (IPSL), Véronique Ducrocq (CNRM), Piero Lionello (U. Lecce), Maria-Carmen Llasat (U. Barcelona), Alberto Montanari (U. Bologna)

Local Organising Committee

Silvio Davolio (ISAC-CNR), Silvio Gualdi (CMCC), Alberto Montanari (U. Bologna), Fabrizio Nerozzi (ARPA-SIMC)
